

# **Building Communities through Media**

## Kalanjiam Community Radio Experience

**P Krishnamurthi**

Team Leader

Centre for Development Communication

**DHAN Foundation**

## Kalanjiam Community Radio has been established to

- **Use information and communication as a tool for change**
- **Enable the coastal communities to get prepared for managing disasters and strengthen their livelihoods to cope up with such disasters.**
- **Build skills of the community to prepare and disseminate audio programmes on the areas concerning their socio-economic and cultural development.**
- **Aid in preservation of local wisdom & traditional knowledge**

# Partners in the Process

- **Owned by:** Communities in Keelaiyur block of Nagapattinam District, Tamil Nadu
- **Facilitated by:** DHAN Foundation's Centre for Development Communication
- **Resource support by:** United Nations Development Programme
- **Technical support by:** VOICES, Bangalore

- **Awareness Songs**
- **Signature Tune**

**Daily 30 - 45 minutes Programme, evening @ 5 PM**

**DHAN Foundation**

# Governance

**21 members Board of Governance drawn from the Peoples Organisations promoted in the Keelaiyur block, two third of the members are women**

# Governance

**Board members meet once in a month to**

- **Give guidance for evolving content for production**
- **Review and monitor the functions of the staff**
- **Review and monitor the physical and financial performance**
- **Facilitate participation of fellow community members**
- **Resolve conflicts / issues in the above areas**

# Learnings so far

- **Organised social infrastructure lays the foundation for Community Radio.**
- **Narrowcasting has several limitations with respect to reach and coverage of listeners.**
- **Involving local government officials for content and programming is very difficult due to lack of clarity.**
- **Response from children and elders were overwhelming for programming.**

# Challenges

- **Hurdles in the Policy:** Tsunami is an exceptional case. Fulfilling 3 years requirement - stumbling block for many Community Radios to emerge in the disaster hit coastal areas. DHAN is applying.
- **Moving from participation & management into ownership and control:** making the community to involve in designing and implementing media production needs time for educating the members individually and collectively.
- **Involving women** in the core business of media management, within the male dominated local communities and making them as part of day to day management.
- **Sustainability:** Village Information Centres have proven sustainability up to 70-80 percent. Mechanisms for cost coverage in CR context needs to be explored with the community. Initiated discussions.
- **Integrating with mainstream disaster warning systems** and building location specific warning.

# Emerging Kalanjiam Community Media Centre

# Way forward

- **Working towards setting up systems for disaster mitigation and management.**
- **Transition into mixed media model of ICT based radio and video, the Kalanjiam Samuga Vanoli is taking shape of a Community Multi Media Centre.**
- **Enabling the community, especially women to own and manage Kalanjiam Community Media Centre to address various socio, economic and development issues concerning them.**
- **Attain financial sustainability in a phased manner.**

**THANK YOU**
