33. SYNERGY MEDIA ENTERTN. LTD. (17)
34. SYNTECH INFORMATICS PVT. LT
35. THE MALAYALA MANORAMA CO. (4)
36. THE MATHRUBHUMI PRINTING (4)

- **Note:** The numbers in the bracket indicates the total number of licenses

Engineering considerations for Community Radio broadcasting

- ✦ Assigned emission bandwidth 180 KHz
- ✦ Max. Power assigned 50Watts(100 W eirp)
- ✦ Max. antenna height 30 metres
- ✦ Expected coverage 4-6 KMs
(in urban environment)
- (in rural environment) 6-15 KMs

Community Radio Stations in India (as on 31st July, 2007)

| | |
|---|-----|
| Number of community radio stations allotted frequency | 125 |
|---|-----|

| | |
|-------------------------------------|----|
| Number of stations brought into use | 25 |
|-------------------------------------|----|

| | |
|--|----|
| Number of stations could not be cleared due to spectrum non-availability | 12 |
|--|----|

Limitations in spectrum management for community radio broadcasting

- ✖ Limited frequency spots earmarked due to non availability of spectrum
- ✖ Option for H-24 operation
- ✖ Poor selective quality of receivers which does not permit less adjacent channel spacing
- ✖ Many stations within the city/town

Restrictions relating to frequency assignment as per Ministry of I&B Guidelines

- ✦ In the event of more than one applicant for a single frequency at a given place the successful applicant will be selected by a Committee based on the basis of standing in the community, commitment, etc.,
- ✦ An applicant/organisation shall not be granted more than one permission for community radio operations

Procedure for WPC's Operating licence.

- ✦ After obtaining permission for establishing community radio, from the Ministry of I&B, apply to WPC for necessary frequency clearance.
- ✦ Apply for frequency clearance in the appropriate format enclosing a copy of above document.
- ✦ Apply simultaneously for the SACFA clearance.
- ✦ After SACFA, go for the GOPA (Grant of Permission Agreement) with the Ministry of I&B.
- ✦ Also, after SACFA clearance, apply for Wireless Operating Licence (WOL) along with a copy of SACFA clearance, copy of LOI issued by Ministry of Communications &IT, copy of invoice of equipment procured, copy of GOPA and requisite payment as indicated in the letter of agreement in principle.

Growth of Community Radio (only frequency earmarking)

A comparison between Wimax and Community Radio (similarities)

✦ Knowledge dissemination

✦ Learning

✦ Information exchange

✦ Entertainment

✦ Society development

✦ Education

✦ Point to multipoint distribution

A comparison between Wimax and Community Radio (dissimilarities)

Community Radio

- ✦ It is a broadcast meant for all (broadcast service)
- ✦ Cheaper receivers
- ✦ Own language, immediate reach
- ✦ Maximum information as per need of the hour
- ✦ Addressed for the particular society, knowledge level no bar
- ✦ No abrupt technological changes
- ✦ Low spectrum requirements

Wimax technology

- ✦ Although it is in broadcast mode, reception is possible only through subscription
- ✦ Comparatively costly hardware
- ✦ Language restriction, minimum understanding level required
- ✦ Information is to be searched based on the requirement
- ✦ Common addressing, but required Information is to be searched
- ✦ Abrupt technological changes anticipated
- ✦ Higher spectrum requirements
